# Austin Area BICYCLE ROUTE MAP

## LEGEND

- EASE OF USE**
- High: Bike lanes or wide curb lanes on higher volume streets. Some low volume residential streets.
  - Moderate: Generally low to moderate traffic volumes; may have wide outer lane or shoulder.
  - Low: High traffic volumes, narrow lanes, or difficult connections. May function as a barrier to cyclists.

Ease of use ratings are based on outside lane width, presence of bike lanes, traffic volume, and traffic speed.

## UNRATED FACILITIES

- Local Streets: Generally low traffic volume residential streets. Easy to ride
- Trail/Path: Trails may have rough surfaces. Many are recommended for off-road bikes only.
- Paved Trail/Path: Surface suitable for all bicycles
- Climbing lane: Uphill only bicycle lane

## BARRIERS TO TRAVELING BY BIKE

- Barriers
